Brief Note on Event

M. L. Institute of Diploma Studies, Bhandu always encourages sports for students to choose their interest games (indoor / outdoor). This essentially helps students in training their minds in the right manner and shaping positive attitude towards their career as a part of improving the soft skills of the students, preparing them to take on the challenges in their respective fields with the same sporting spirit. With the intention to see the hidden talents of the students, Cricket, Volleyball, Kabaddi, Badminton, Carrom, Chess, Kho-Kho and many more surprising one-minute games are going to be played in first week of February 2022 in the Campus.
